Eleni Alexiou

Bone mineral density examination

REPORT

Osteopenia of all examined structures is measured.

When the values are age matched osteopenia of L1, L2, L4, the femur wards and trochanter is calculated.

	T-score	Z-score
L1-L4	-1.7 (ήλικων -2,9)	-1.1 (ήλικων -2,4)
Total femur	-1.9 (ήλικων -1,9)	-1.4 (ήλικων -1,6)

Control BMD examination in two years is recommended.

Yiannis Kolocassides
