| 2 tbsp. cold-pressed extra-virgin olive oil        | (approximately 1 1/2 tablespoons)                             |
| 1 tbsp. organic garlic, minced                     | 2 tbsp. fresh organic lemon juice                             |
| 1/4 tsp. red pepper flakes                         | 1/2 cup freshly grated parmesan cheese, plus more for topping |
| 1 bunch organic kale, de-stemmed and thinly sliced | 1/4 cup raw organic walnuts, toasted and coarsely chopped     |
| 1 pinch of sea salt                                |   |

## Directions:

1. Place raw walnuts in a dry skillet set over medium heat, and cook, until toasted  
walnuts start to brown and smell toasted, about 5 minutes. Set them aside
2. Wash, de-stem and thinly slice your kale
3. Mince your garlic cloves, and zest and juice your lemon
4. Bring a large pot of salted water to a boil for the pasta. Cook the pasta according to the package directions. Reserve 1/2 cup pasta water and then drain
5. When the pasta has about 5 minutes left to cook, heat the 2 tablespoons olive oil in a large skillet over medium heat
6. Add the garlic and red pepper flakes and cook, about 30 seconds to 1 minute, until tender and fragrant
7. Add in the sliced kale along with a pinch of sea salt and cook until wilted and tender, about 1-2 minutes
8. Remove from heat and add in the lemon zest and juice, and give it all a good toss to combine
9. Add the pasta to the skillet and toss to combine. Add in some of the reserved pasta water to create a thin sauce. This is to taste and you really just want to add enough water so that the pasta isn't sticking together in clumps
10. Add in the 1/2 cup grated cheese and toss to combine
